PROJECTS

CureConnect (Link) April 2023 - May 2023

- Developed a full-stack Doctor Appointment Booking System using MERN Stack (**MongoDB, Express.js, React.js, Node.js**).
- Implemented 3-level role-based authentication (Admin, Doctor, Patient) for secure access control.
- Integrated Razorpay payment gateway for online appointment fee transactions.
- Enabled real-time appointment booking, profile management, and dashboard analytics for doctors and patients.

AiCruiter (Link) July 2024 - August 2024

- Developed and deployed a full-stack AI Recruiter Voice Agent using Next.js, React, Vapi, and Supabase.
- Integrated real-time voice interaction using Vapi API to simulate dynamic, AI-driven job interviews.
- Implemented Supabase for user authentication, backend storage, and interview data management.
- Built a responsive and interactive UI with ShadCN UI and Tailwind CSS for smooth user experience.

ACHIEVEMENTS

- Solved **800+ coding challenges** on various platforms including **GeeksforGeeks, LeetCode, CodeForces, CodeChef, Coding Ninjas and HackerRank**.
- Achieved a **maximum contest rating of 1780 on GFG (top 10 percent)** in rated contests.
- Achieved a **maximum contest rating of 1626 on LeetCode** in rated contests..
- Secured a **maximum contest rating of 1528 on CodeChef** by solving diverse and challenging problems..
- Achieved **5-star rating in Problem Solving and CPP on HackerRank**.
